BRINGING THE LOCAL, COOPERATIVE AND LIVING ECONOMY PRACTICES TOGETHER

.....

First International Call to organize a :

World Social Forum of Transformative Economies

/// Barcelona 2019-2020 ///

reas
red de redes de economía
alternativa y solidaria

A process of convergence to set up an Inclusive World Agenda from networked local nodes

WSF OF TRANSFORMATIVE ECONOMIES

APRIL 2019 – APRIL 2020 (BARCELONA)

Different approaches, Shared values, Common action:

- **Eco-Feminist and Gender Perspective Economies**
- **Agroecology and Food Sovereignty**
- **Natural, Urban and Digital Commons**
- **Social Solidarity Economy, Cooperativism, Fair Trade, Ethical Finances**

Cross-cutting convergence tracks:

- **Transformative Public Policies**
- **Education, training and research**
- **Funding systemic change**
- **Changing the imaginary / mainstreaming**

WSF OF TRANSFORMATIVE ECONOMIES

APRIL 2019 – APRIL 2020

Main Goals

- 1) **Build and strengthen alliances and strategical actions** among alternative / transformative practice-based economic initiatives who have a strong commitment to changing the growth, competition and Market based economy into a resilient, collaborative, fair and solidarity based one.
- 2) **To involve and dialogue with public institutions** (starting with municipalities and other local public authorities), in the perspective of co-constructing public policies that can enable the above actors to enhance and promote their work.
- 3) **Change the narrative** and give visibility to a plural, diverse, multicultural movement, involving public opinion, media and youth.

WSF OF TRANSFORMATIVE ECONOMIES

APRIL 2019 – APRIL 2020

2019: 5-7th of April

First international convergence assembly (500 people): preparing the Forum - agreeing on the format, methodology and main convergence tracks

2020: April (date to be decided)

The Forum (10,000 people): a week to meet, discuss and create new alliances for an international agenda (2020-2030) of common actions

The event will also be a Festival of cultural activities and of local convergences around the world
