# LET'S REPOWER THE NT WITH RENEWABLES

Thousands of new jobs. Lower power prices.  
A stronger Territory.

---

# 10 Gigawatt Vision

An ambitious renewables strategy can spark a vibrant manufacturing sector in the Territory, with export opportunities in energy infrastructure, zero-carbon manufacturing and minerals processing.

Warumungu Elder  
Norman Frank &  
Warlmanpa Elder  
Christine Morton of  
Tennant Creek  
calling for equitable  
access to solar and  
solar jobs in their  
communities.

# Our **10-Point Plan** to Repower the NT

## [Video](#)

1. Deliver the 50% renewable energy target by 2030
2. Solar for all new NTG Buildings, including social and affordable housing
3. A feasibility study of an HVDC transmission line between Darwin and Alice Springs
4. Community renewables program to support solar in regional and remote NT
5. Establish NT as a Renewable Energy Territory and a renewable hydrogen pilot plant

# Our **10-Point Plan** to Repower the NT

6. Set a local content target for all large-scale renewable energy projects to drive NT manufacturing

7. Review training programs to grow skills of the local labour force

8. Introduce a time-of-use tariff

9. Establish an ancillary services market

10. Initiate a reverse auction process for renewable energy power purchase agreements

# Take Action

1. Erect our "WE ♥ SOLAR" sign on your front gate and bumper sticker on your car
2. Tell your local NT election candidates to support our plan to repower the NT with renewables [ecnt.org/repower\\_nt](https://ecnt.org/repower_nt)
3. Become a Territory Guardian - a regular monthly donor to the Environment Centre NT
